ABOUT ME

I am a highly motivated and adaptable Computer Science Undergraduate at the Informatics Institute of Technology (IIT), possessing a strong academic foundation along with excellent problem-solving, self-learning, and programming skills in Python and Java. My background in computer science provides me with analytical thinking and creativity, enabling me to quickly learn and excel in diverse technological environments.

EDUCATION

Informatics Institute of Technology (IIT) | 2024 - Present

BSc (Hons) Computer Science

Informatics Institute of Technology (IIT) | Sept 2023 - 2024

One Year Foundation Certificate in Higher Education - IT

- Overall Credit - Merit

Isipathana College, Colombo | 2022(2023)

G.C.E O/L Examination

- Grade - 6As, 3B

PROJECTS

tasker-cli - Individual

Developed a RESTful Smart Campus API in Java (JAX-RS/Jersey) featuring HATEOAS service discovery and thread-safe persistence. Optimized system security by implementing a Global Exception Mapper to sanitize stack traces and used modular Sub-Resource Locators to ensure a clean, scalable architecture for sensor and room management.

Smart Campus: Sensor & Room Management API - Individual

Developed a lightweight CLI task manager in Go featuring persistent storage via JSON file I/O. Engineered a modular system for task lifecycle management, including state tracking and automated indexing and compiled cross-platform binaries for streamlined terminal use.

Project SafePaws - Group

Contributed to backend development and landing page design for a university group project focused on a pet safety and welfare platform, including REST API implementation.

Project Eureka Landing Page - Individual

Developed a conversion-focused marketing landing page for an AI-powered lost & found platform using HTML, CSS, and JavaScript.

Project Eureka AI Services - Ongoing - Group

Contributing to AI/ML development for an ongoing platform with two teammates, building Python-based models and intelligent features.

Weather Dashboard - Individual

Built a full-stack weather dashboard using React, integrating real-time APIs, user authentication, and dynamic forecasting features.

Personal Finance Tracker - Individual

Personal Finance Tracker (Spring Boot/Java) built with Gradle, featuring MySQL integration and a Thymeleaf-based web interface.

Traffic Visualization - Individual

Processes raw CSV traffic logs from two major junctions to surface peak hours, speeding violations, and key real-world statistics through rich visual output using python.

SKILLS

Technical Skills

- Java
- Python
- JavaScript
- SQL
- HTML

Soft Skills

- Teamwork
- Time Mangement
- Effective Communication

WORK EXPERIENCE

Port City BPO | May 2025 - July 2025

Payment Associate

Worked as a Payment Associate at Port City BPO while continuing academic studies, handling payment processing and transaction-related tasks.

CERTIFICATES

Professional Certificate in Java Programming with Object Oriented at IIT

- Credit - Distinction

Professional Certificate in Machine Learning

- Credit - Participation
